

Managing Governance During Transition

Frances Talbert

December 10, 2018

Managing governance
through communication
can make or break the
entire effort.

1

Communicate
earlier
than you think you should

2

Communicate
more often
than you think you should

3

Develop a
clear vision
before you start
communicating

4

Know the
starting point
before you communicate

5

Write and distribute
talking points
before you start

6

Start
simple

7

Resist
the urge
to make it more complicated

8

Dive

a little deeper

and then a little deeper

9

Put on your
oxygen mask first,
then help your teams above
and below

Bonus

Be flexible
